

Performance Scales for the Quantity Serve Test Protocol

Test Description:

- The student will serve behind the end line 15 times using underhand or overhead serve.
- All serves must go over the net, between the antennae and land in bounds.
- Number of serves made out of 15 will be recorded.
- Serves must be overhand and made from legal distance
 - *Underhand serves can only be used by students that cannot successfully execute an overhand serve*
